

## **Videoconferencing Content Provider Listings**

### **Virtual Field Trips**

#### **Videoconferencing:**

<http://www.nassauboces.org/dln/videoconferencing/index.htm>

A top videoconferencing site in New York State run by Nassau BOCES. This site has a directory of content providers and includes contact information, program title(s), program cost, and appropriate grade levels.

#### **Videoconferencing For Learning:**

<http://www.kn.pacbell.com/wired/vidconf/index.html>

The Videoconferencing for Learning web site through Pacific Bell supports effective use of videoconferencing technology by providing basic information about videoconferencing technology and instructional applications as well as resources to help you link with other videoconferencing teachers, librarians, and content providers.

Web site resources include a searchable directory of ISDN sites (schools, libraries, community colleges, and community organizations) and links to other videoconferencing directories. A mailing list and archive to help educators and librarians use ISDN videoconferencing for learning is also available. This is an appropriate list for seeking subject-area experts or classroom collaborations, for posting questions, and for sharing successes or lessons learned.

#### **Electronic Field Trips:**

<http://www.cesa10.k12.wi.us/dl/trips/index.htm>

Maintained by Wisconsin's Cooperative Educational Service Area 10 (CESA 10), this site is a compilation of information regarding available videoconferencing events for K-12 students. Visitors can view specific information regarding available content providers, program descriptions, contact information, targeted grade levels, and program costs.

#### **Southeastern Wisconsin Instructional Network Group:**

<http://www.swing.k12.wi.us/isdn/>

This web site has video samples of virtual field trips from a number of different content providers. There is also a listing of links to web sites of other videoconferencing and content provider consortiums.

#### **TWICE (Two Way Interactive Connections in Education):**

<http://www.twice.cc/fieldtrips.html>

This web site from Michigan contains a number of different useful virtual field trip resources, including a searchable database of content providers. Visitors to this site can also review evaluations submitted by teachers of specific content providers and virtual field trip programs.
